## INTRODUCTION

The 2004-2005 public library statistics were collected from each public library in Tennessee on a data collection form. A reduced-size copy of the form, instructions and definitions may be found in the Appendix.

The data collected conform to the national data format with definitions created by the Federal State Cooperative System (FSCS), a federally-funded program established to collect and publish accurate, consistent and comparable public library statistics annually from each state.

Because the FSCS timelines were advanced to provide more timely data, the libraries' figures were run through the edit checks provided by the FSCS WebPlus software prior to this publication. This change in procedure has resulted in some corrections, and thus better published data.

Again this year the presentation of these figures would not be possible without the collection and development work of the local library directors and their treasurers or bookkeepers along with the regional data coordinators who check and enter the data for their libraries.

All persons in the state are included within the service area of a full-service library and thus the population of each county is assigned to one or more full-service library. The population figures for the full-service libraries reflect the "Official Public Library Service Area" population submitted to each library board in the summer of 2004 for review and adoption. Only full-service libraries, as defined in the Tennessee Minimum Standards for Non-Metropolitan Libraries (see pages 3 - 7), are assigned an official service area population. Information about the population assignments can be obtained upon request at the regional libraries.

For FY 2004-05 the Tennessee Public Library Statistics were revised to include more information in the state report. As a result, several changes were made to the layout of the report. The new report is organized into six sections and each section is listed alphabetically by region, then by city and finally by library name:

**Section I: Income.** This section contains total local, state, federal, other and capital income for each library system. Population figures and per capita data are also included in this section. These are the (green) pages in the printed report.

**Section II: Expenditures.** This section contains operating and capital expenditures for each library system. Population figures and per capita data are also included in this section. These are the (pink) pages in the printed report.

**Section III: Staff and Service Hours.** This section contains a breakdown of library staff in FTE's and the total annual service hours per year for each library system. These are the (yellow) pages in the printed report.

**Section IV: Services.** This section contains service information including registered borrowers, annual attendance, circulation, reference, programs and program attendance for each library system. These are the (white) pages in the printed report.

**Section V: Collection (there are two parts to this section).** This section contains the collection materials breakdown for each library system. Each type of material shows the number of local and regionally owned items separately. The number of E-books and databases were included in the totals for “Other” materials. Due to the large scope of information in this section, it was separated into two parts (I & II). Part I covers books, audio, and video materials. Part II covers other and total materials. Serial materials and Interlibrary Loan information is also included in Part II. The square footage for each library building is included in both parts of this report. These are the (blue) pages in the printed report.

**Section VI: Miscellaneous.** This section contains Friends of the Library data, Tennessee Library Card Membership, accessible weekend/evening hours and Internet access and use information. These are the (melon) pages in the printed report.

### **Branch Libraries**

Previously, the branch libraries were listed in a separate section. For FY 2004-05, branch library names are included in each of the sections listed above. These branches are in lower case lettering and are listed immediately following their main library. Main libraries are indicated by the (S) following the city name for the Main library. For sections I, II, III, IV, and VI, the branch totals are included in the main library totals and therefore an N/A will appear for the branch data. In section V (Collection, Parts I & II), the square footage and total library volumes is included for those branches that were reported.

### **Additional Notes:**

Independent libraries are not a part of a regional library system.

Two former branch libraries – Germantown Community Library and the Lucius E. and Elsie C. Burch, Jr. Library – became Independent libraries in FY 04-05. However, this occurred after Official Service Area Populations had already been assigned to the libraries in Tennessee. Therefore, no population figures are provided for these libraries in FY 04-05. Population figures were assigned in FY 05-06 and will be included in that year’s report.

A database may be issued on CD-ROM, diskette, or other direct access method, or as a computer file accessed via dial-up methods or via the Internet. Include such services as EBSCO Host and OCLC FirstSearch, but do not include other electronic serial databases (e.g., Project MUSE, OCLC ECO Project). **Part IV – Library Service**

<p><b>36. Service hours:</b> Take a typical workweek from Sunday through Saturday in which the library is open its regular hours, containing no holidays. Multiply the total service hours of that week by 52 for the annual service hours. Minor variations in scheduled public service hours need not be included; however, extensive hours closed to the public due to natural disasters or other events should be excluded even if the staff is scheduled to work.</p> <p>For Systems: Using the above method, identify annual service hours for each branch and bookmobile and add to main library's annual service hours total. This new total reflects all service hours in the system. (See Part XI, page 9)</p>	<p><b># Service Hours:</b></p>	
<p><b>37. Annual attendance in library:</b> If an actual count of visits is not available, count the total number of persons entering the library per typical week including persons attending activities, meetings, and persons requiring no staff services. Multiply this figure by 52 to get annual attendance.</p> <p>For Systems: Include attendance at main library, branches and bookmobiles. (See Part XI, page 9)</p>		<p><b>#Attendance:</b></p>
<p><b>38. Annual reference transactions completed:</b> If an actual count of reference transactions is not available, count the total reference transactions per typical week and multiply this figure by 52 to get annual transactions. A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include printed and non-printed materials, machine-readable databases (including computer-assisted instruction), catalogs and other holdings records, and through communication or referral, other libraries and institutions and persons both inside and outside the library. When a staff member utilizes information gained from previous use of information sources to answer a question, report as a reference transaction even if the source is not consulted again during this transaction. The request may come in person, by phone, by fax, mail, or by electronic mail from an adult, a young adult, or a child.</p> <p><b>NOTE:</b> It is essential that libraries do not include directional transactions in the report of reference transactions. A directional transaction is an information contact which facilitates the use of the library in which the contact occurs and which does NOT involve the knowledge, use, recommendation, interpretation, or instruction in the use of any information sources other than those which describe that library, such as schedules, floor plans, handbooks, and policy statements. Examples of directional transactions include giving instruction or locating, within the library, staff, library users, or physical features, etc., and giving assistance of a non-bibliographic nature with machines.</p> <p>For Systems: include reference transactions at main library, branches and bookmobiles</p>	<p><b># Reference Transactions:</b></p>	
<p><b>39. Annual circulation transactions:</b> the lending of library materials to registered library borrowers for a specified period of time and under clearly identified rules and regulations. This activity includes charging, either manually or electronically, and also renewals, each of which is reported as a circulation transaction. Do not count in-house use of library materials. For juvenile circulation count the total annual circulation of all children's materials in all formats to all users. (If records by age are not kept, use estimates based on percentages of typical week. Indicate if records or estimates are used) Suggestion: use monthly figures previously sent to region, so these numbers agree.</p> <p>For Systems: include circulation at main library, branches and bookmobiles (See Part XI, page 9).</p>	<p>___Records ___Estimate</p>	<p><b>a. # Adult Circulation:</b></p>

<p><b>40. Total number of programs/presentations made to groups:</b> An information contact planned in advance in which a staff member or person invited by a staff member provides information intended for a number of persons. Information service to groups may be either bibliographic instruction or library use presentations, or it may be cultural, recreational, or educational programs or presentations. Programs or presentations both on and off the library premises are included, as long</p>	<p><b>a. # Adult Programs:</b></p> <p><b>b. # Juvenile Programs:</b></p>	

<p>as the library sponsors them. Does not include meetings sponsored by other groups using library meeting rooms. If programs are offered as a series, count each program in the series. For example, a film series offered once a week for eight weeks should be counted as eight programs.</p> <p>For Systems: include total at main library, branches and bookmobiles.</p>	<p><b>c. # Total Programs:</b></p>
---	------------------------------------

<p><b>41. Total attendance at programs/presentations:</b> Headcount at programs counted above.</p> <p>Total attendance at children's programs includes any adults attending children's program.</p> <p>For Systems: include total at main library, branches and bookmobiles.</p>	<p><b>a. # Adult Program Attendance:</b></p>

**Part V – Resource Sharing**

<b>Interlibrary Loans:</b> An item of library material, or a copy of the material, made available by one library to another upon request. It includes both the lending and borrowing. <b>45. Reciprocal Borrowing Agreements:</b> Reciprocal borrowing is a program in which libraries mutually agree to circulate materials to the patrons who hold a valid library card from other libraries participating in the program. Reciprocal borrowing allows walk-in library users to check out materials free of charge from any participating library. In Tennessee, the Tennessee Library Card (TLC) program is a statewide reciprocal borrowing program available to public libraries and their users.	<b>a.</b> Does your library participate in the Tennessee Library Card (TLC) Program? **Part X– Library Expenditures by Type and Capital Revenue and Expenditures**

**Section A – Operating Expenditures:**

Operating expenditures are the current and recurrent costs necessary to support the provision of library services. Significant costs, especially benefits and salaries, that are paid by other taxing agencies (government agencies with the authority to levy taxes) “on behalf of” the library may be included if the information is available to the library. Only such funds that are supported by expenditure documents (such as invoices, contracts, payroll records, etc.) at the point of disbursement should be included. Estimated costs are not included.

NOTE: Three columns are being provided to record expenses: Column I is for those paid from funds obtained through appropriations (used in testing for Maintenance of Effort). Column II “From Other Income” is for non-capital expenses paid from any source except appropriations. Column II includes expenditures of memorials, gift funds and grant funds or one-time expenditures from fines and fees. Column III is the sum of Column I plus Column II.

The totals in line 67 will probably closely resemble the figures from the Income section. Total Operating Appropriations Page 7 #56 will be similar to line 67 Column A on this page. Total Other Income Page 7 #60 will be similar to line 67 Column B on this page. Although similar, the figures will not necessarily be identical, depending on the timing of spending the income received.
